AECMAGAZINE

DESIGN, MANAGEMENT & COLLABORATION IN THE BUILT ENVIRONMENT

EDITORIAL FOCUS

AEC Magazine has a bold agenda that reflects the evolutionary nature of the fast moving Architecture Engineering Construction sector.

The magazine tracks the huge selection of software and hardware technologies at the disposal of architects and engineers throughout the world. These include concept shaping, 2D drawing, 3D modelling, Building Information Modelling (BIM), Green Building Design, Design Visualisation, Project Management, Structural Design and Analysis, Building Services, BOM, Rapid

Prototyping, Workstation Technology and the production of intelligent models that accompany the completed project through its lifecycle.

AEC Magazine is the only title devoted exclusively to AEC technology solutions in use throughout Building, Architecture, Civil & Structural Engineering – offering greater depth of coverage in the field than any other journal.

If you've a technology solution to sell into the AEC market, this is the place where users will expect to read about it!
